St. Joseph's Basilica

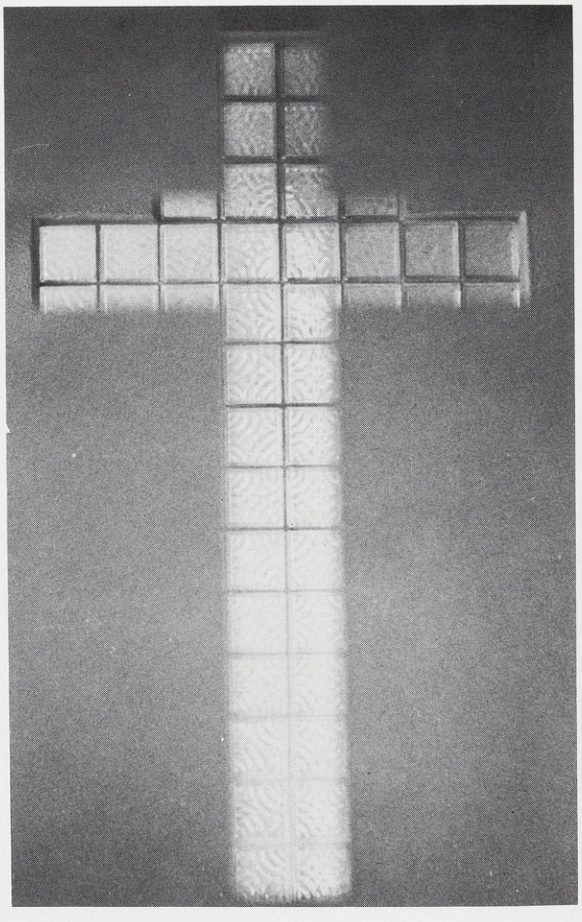
THE HOLY YEAR

Every event, every issue, every time and place was announced as "in the Holy Year". Every opportunity was used to impress on the world around us that this was the Holy Year.

In this 26th general Holy Year our own Basilica was designated as a place of pilgrimage, quite fittingly because its prototype, the Archbasilicas of Rome are the places of pilgrimage par excellence. This means that people of the area made pilgrimages, that special services were held, that special indulgences were gained and that the spirit of the Holy Year both received and exerted impetus in the observance of such a sacred, year-long program of prayer. All this served to sanctify ourselves and others as well as to sanctify the quarter century mark.

The beautiful atmosphere of the Holy Year was flavored by a sense of feeling close to God, reverence, love for the Church and unmeasured zeal for the return of those who had left in recent years.

For youth it was the year of endorsement. The new generation of the young are aware of the deep demands of thought, and are



disillusioned with the dominant materialism. They are all the more eager for certainty as food for their mind, the more scientific certainty celebrates an unquestioned triumph, without satisfying it, but on the contrary making it even more hungry. The young, therefore, aspire to truth, unconsciously perhaps to that Truth in terms of which Christ defined Himself: "I am the Way, the Truth and the Life." (Jn. 14, 6); "I am the Light of the World." (Jn. 8, 12).

They realize the need for authentic truth as guaranteed by our Holy Faith. They are able to note the optimism of Catholic thought. By the gift of God it is sure of the authenticity of its value and its vigor.

What a blessing the Holy Year has been for everyone of us, especially in the light of John D. Sheridan's words, "Each of us is born at a certain time and in a certain place because there is something which no one else could do as well, and every mother's son of us is called and commissioned as surely as were Paul and Xavier."

Indeed it has been a privilege and a blessing to witness and to participate in the Holy Year.

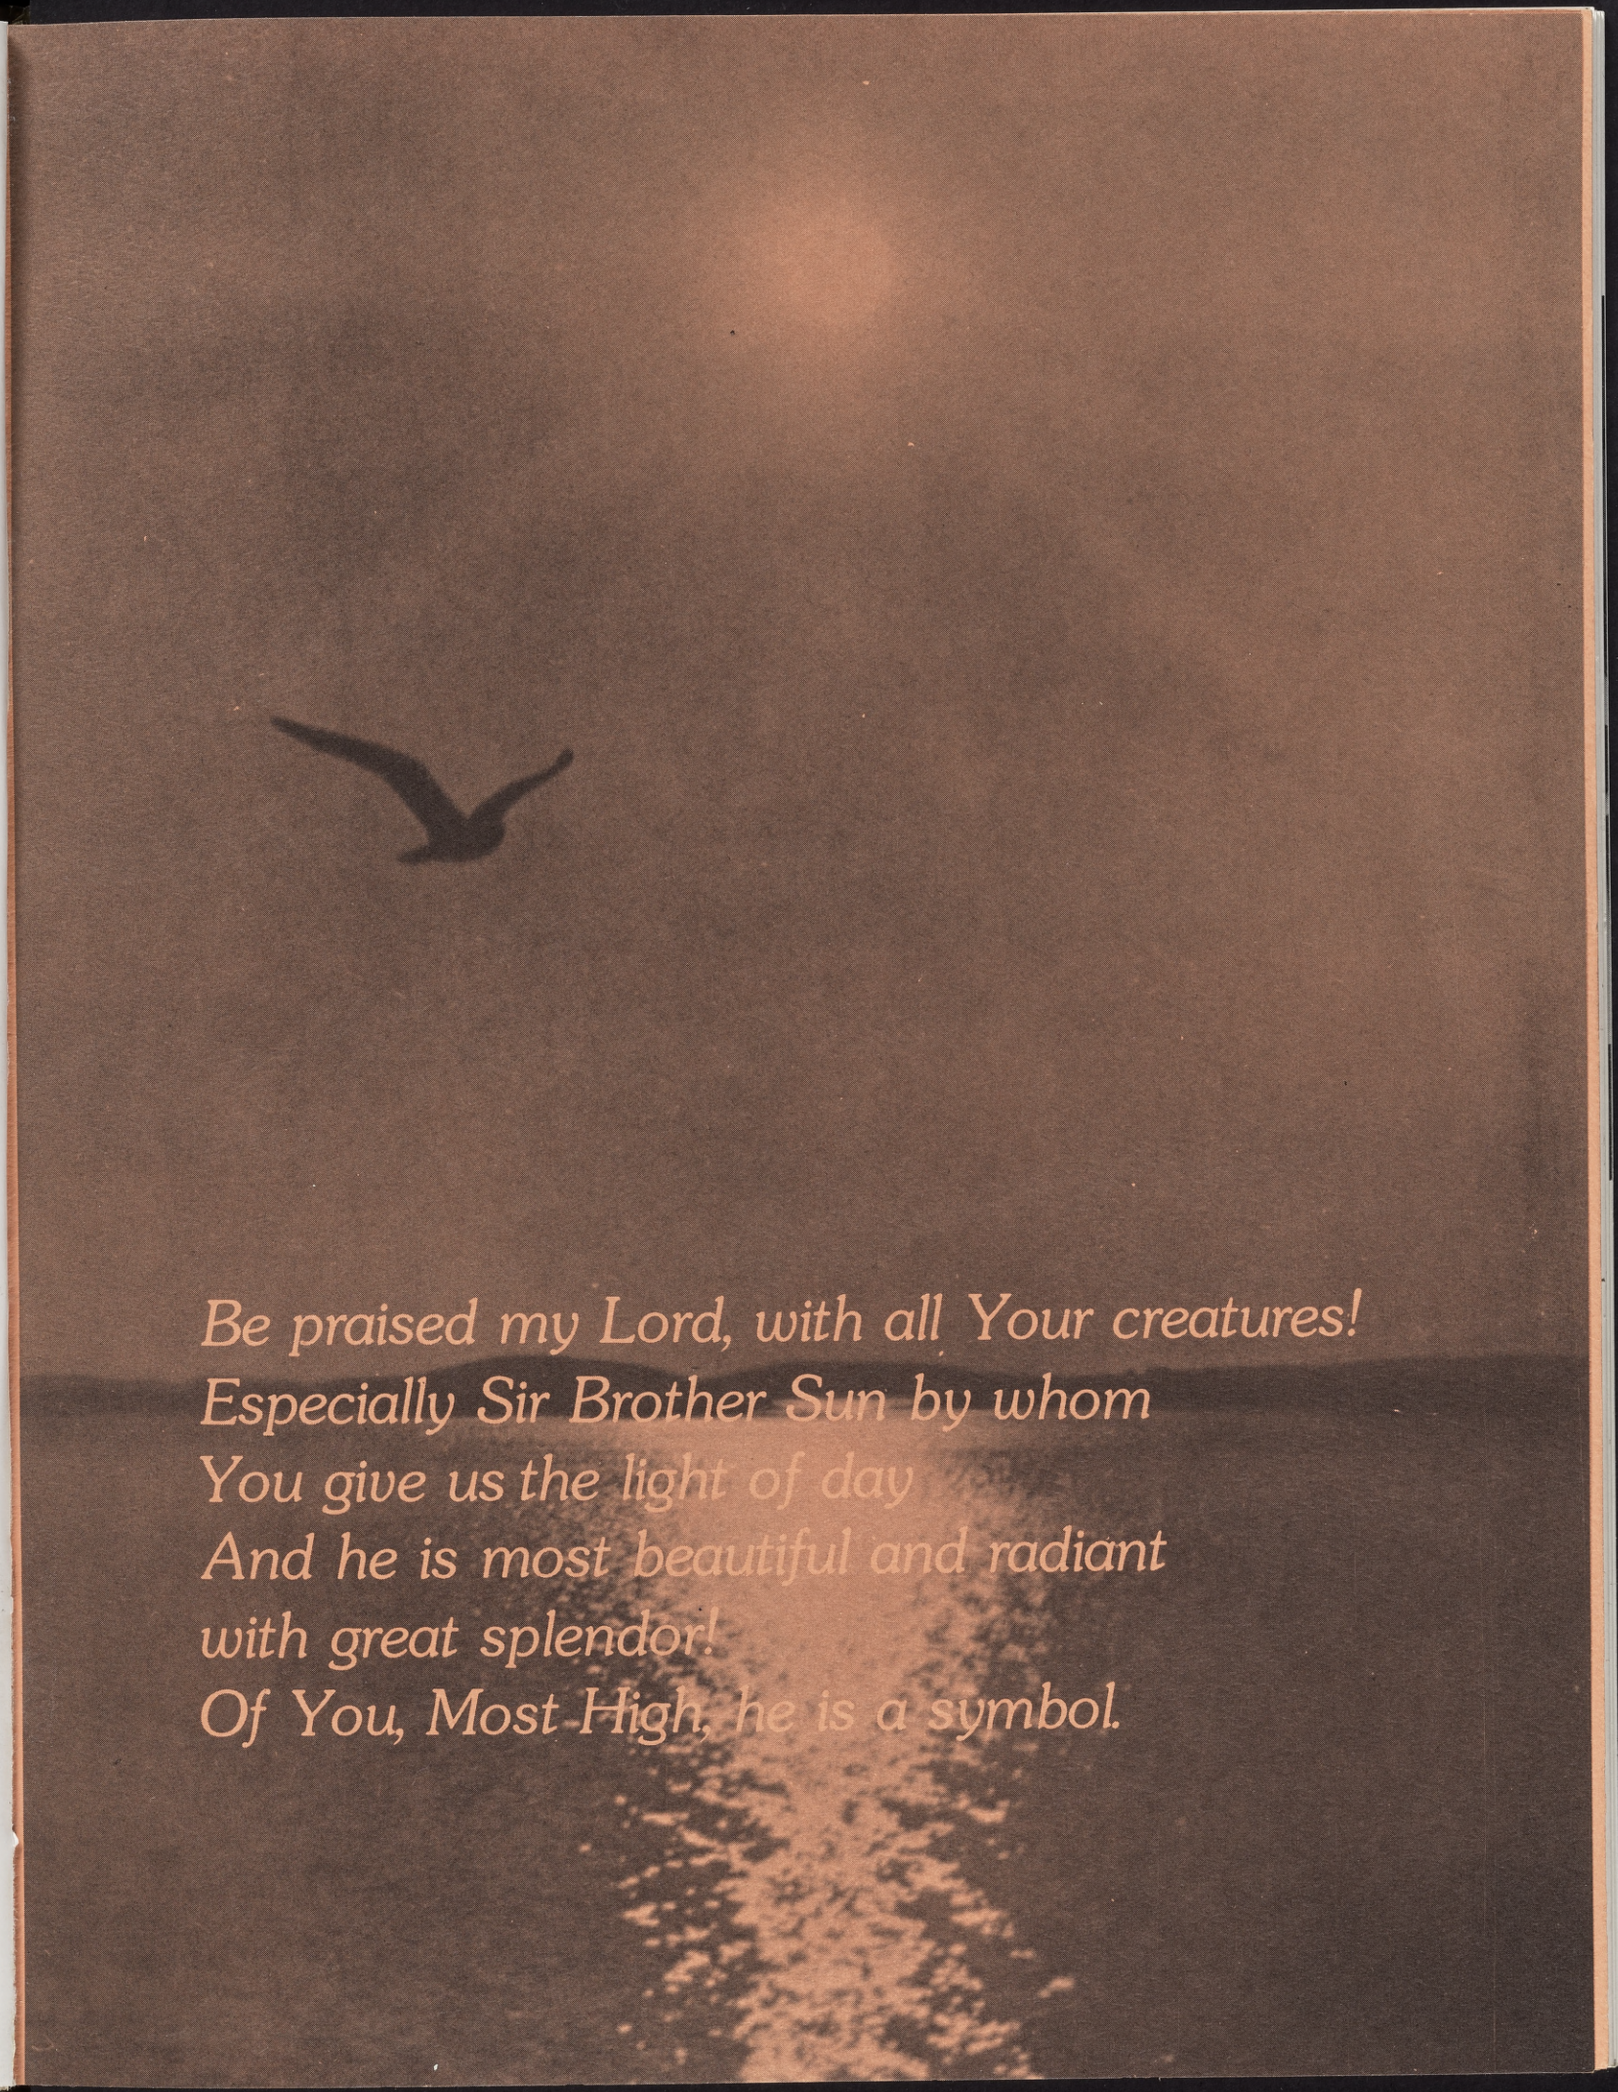
SPACE AGE LITURGY

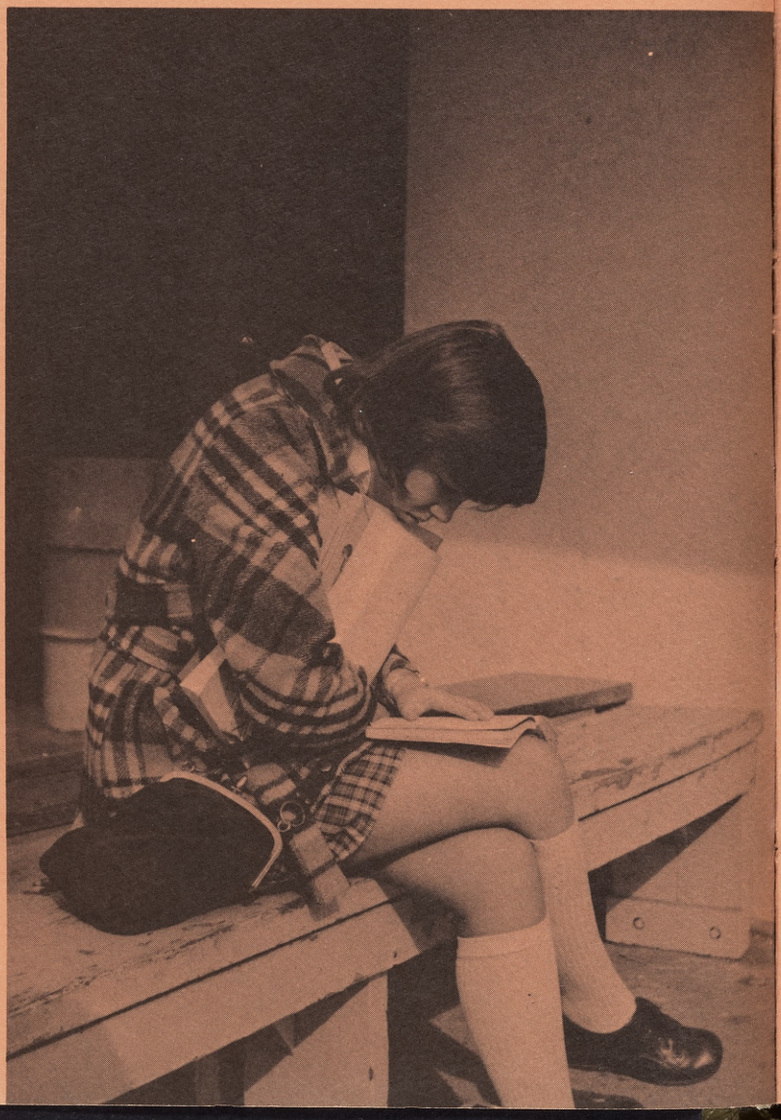
The most eloquent counter-attack to the babble of atheists in our days was the lunar liturgy, the prayers of the American astronauts. In awe and reverence -- virtues forgotten by atheists -- they sang the glory of God as they sailed over the cold moon. In a voyage of half a million miles through spatial silence they discovered God. In that silent, awesome sanctuary they experienced the mighty, ineffable, exquisitly gentle presence of God. They saw Him everywhere -- in the blinding brilliance of the sun, the colorful sparkling gem of the earth, the prehistoric ruggedness of the moon, the infernal blackness of the infinite interstellar spatial seas. Indeed, they heard Him in the very thunderous sacred silence of space and in the hushed rhythm of the circling spheres. To a world-wide audience of hundreds of millions, outside atheistically dominated countries where this lunar liturgy was banned, astronauts Anders, Lovell and Borman celebrated God's creation of heaven, earth, light, day, night, the seas, lands and all forms of life. And with God they agreed enthusiastically that "it was good"! In awe, reverence and filial love they told the whole world what they experienced. Good? That was the understatement of the centuries. It was fantastic, stupendous, magnificent, sublime! Across the centuries they echoed the ecstatic exclamation of the Psalmist: "The heavens proclaim the glory of God and the firmament announces the work of His hands." Some quarter of a million miles away on the good earth, atheists who heard these prayers ground their teeth in desperation. So He is there too? Apparently there is no escape from God!

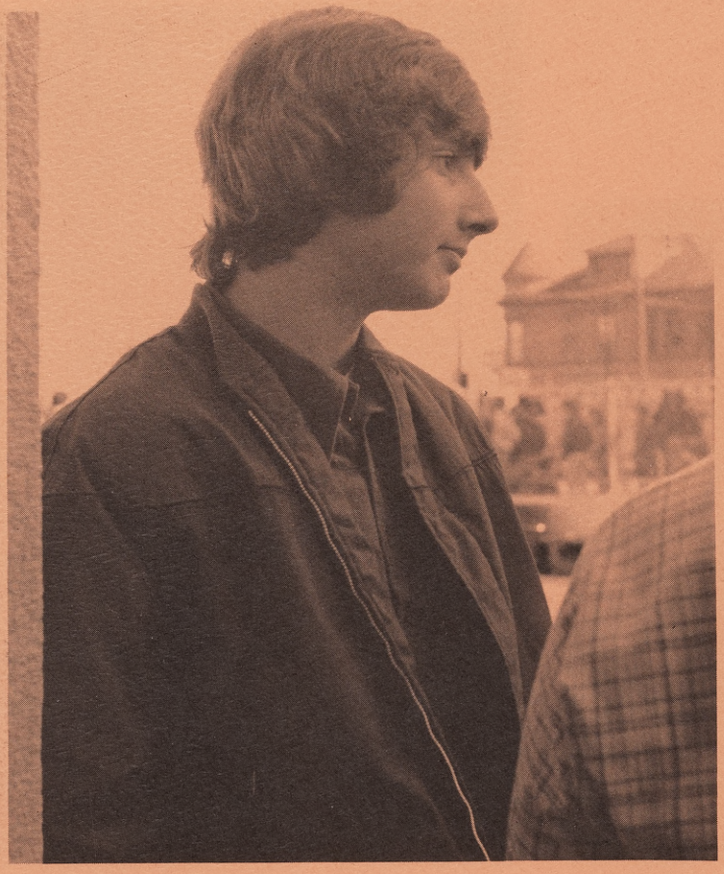
Monsignor Alvin P. Wagner



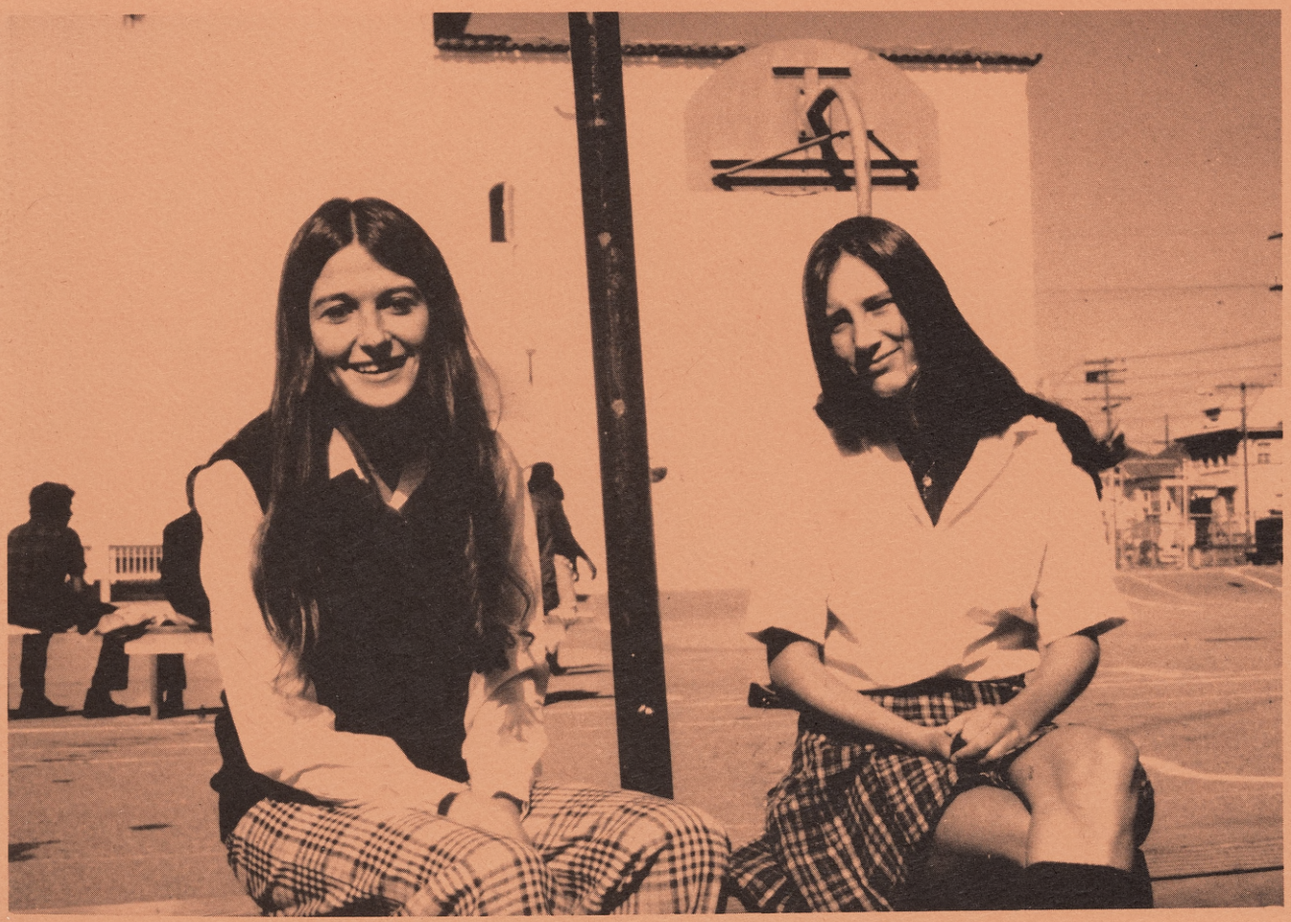
Be praised my Lord, with all Your creatures!
Especially Sir Brother Sun by whom
You give us the light of day
And he is most beautiful and radiant
with great splendor!
Of You, Most High, he is a symbol.

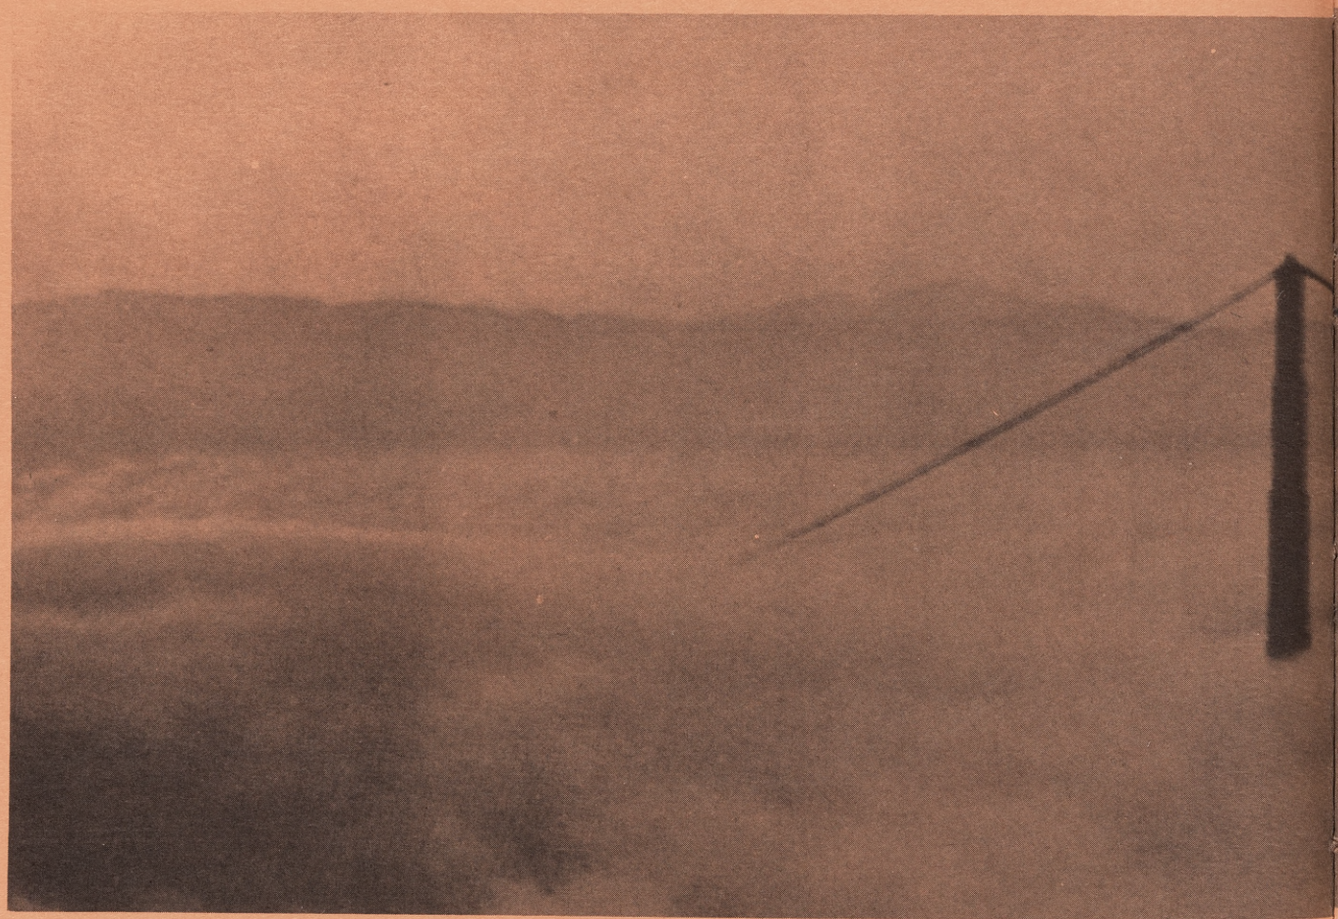
To me,
every hour of
light is a
miracle,



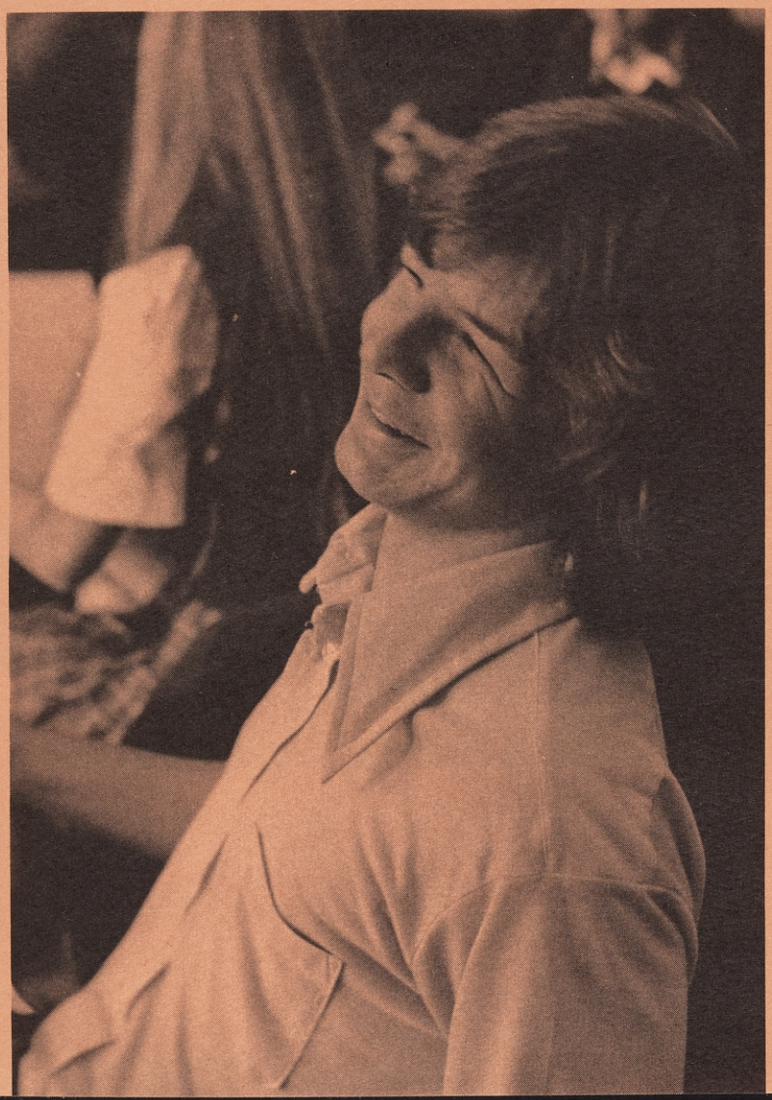


Every inch of space is a miracle.

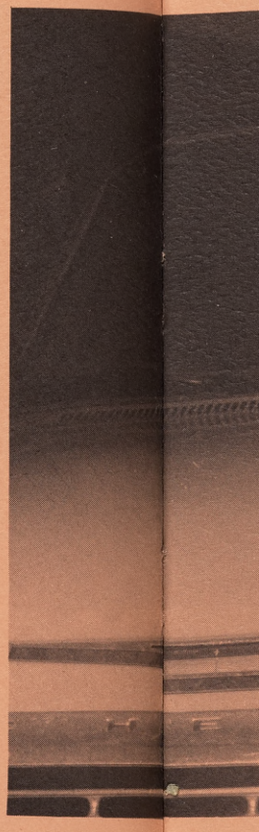




I've never felt so alive.
I'm learning
that there's such a world
out there . . .
and none of us
has ever seen or felt it.

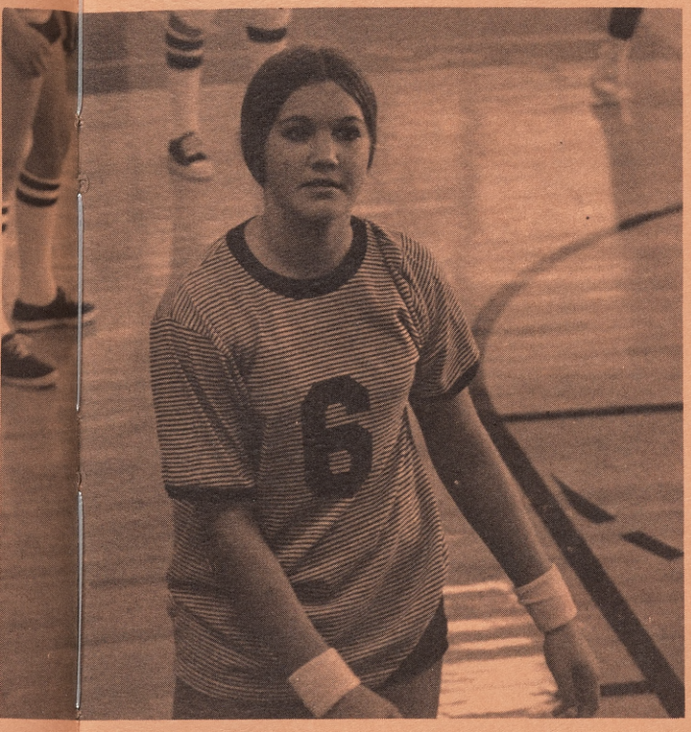


You must love life,
for life is God
and to love life
is to love God.



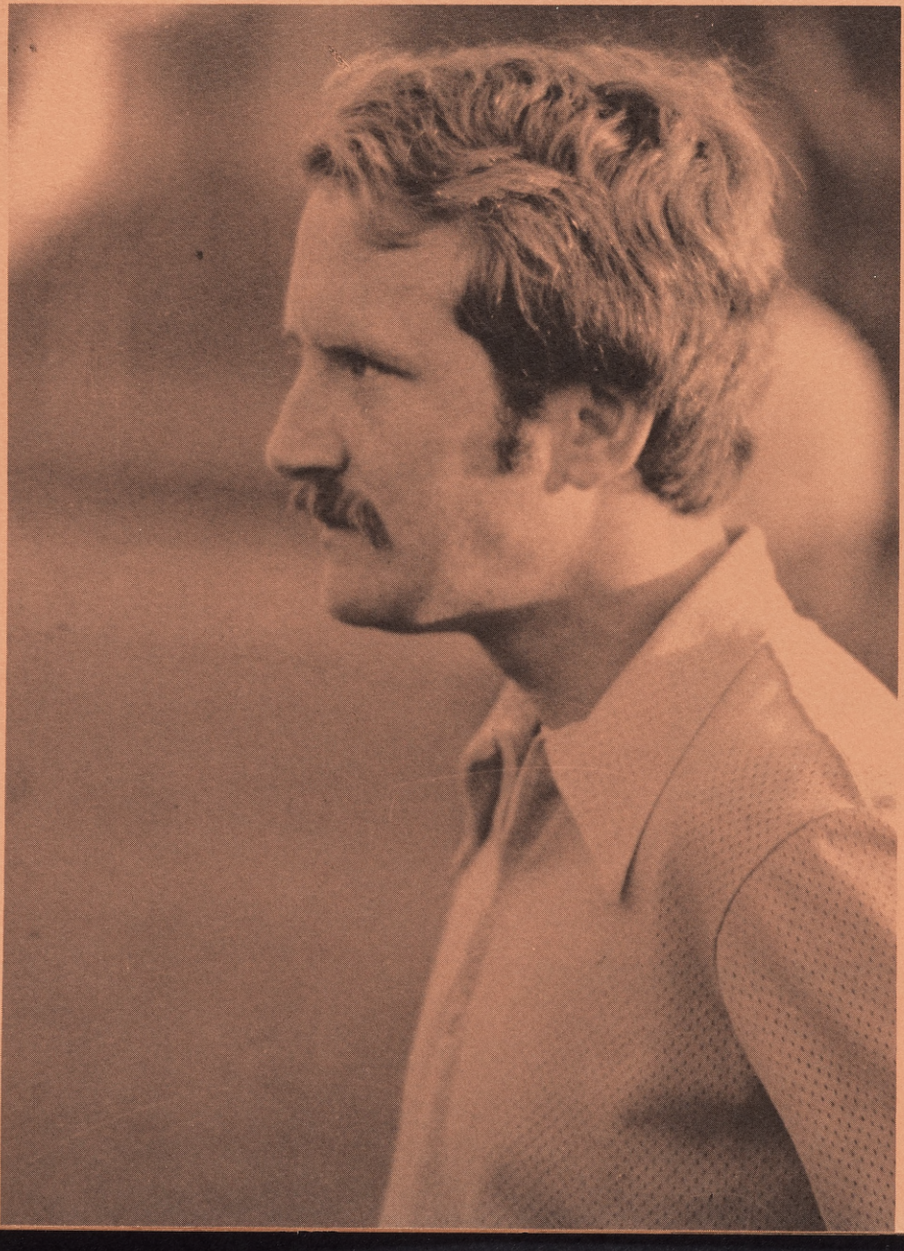
I will
listen
for you

in the singing of the river ar



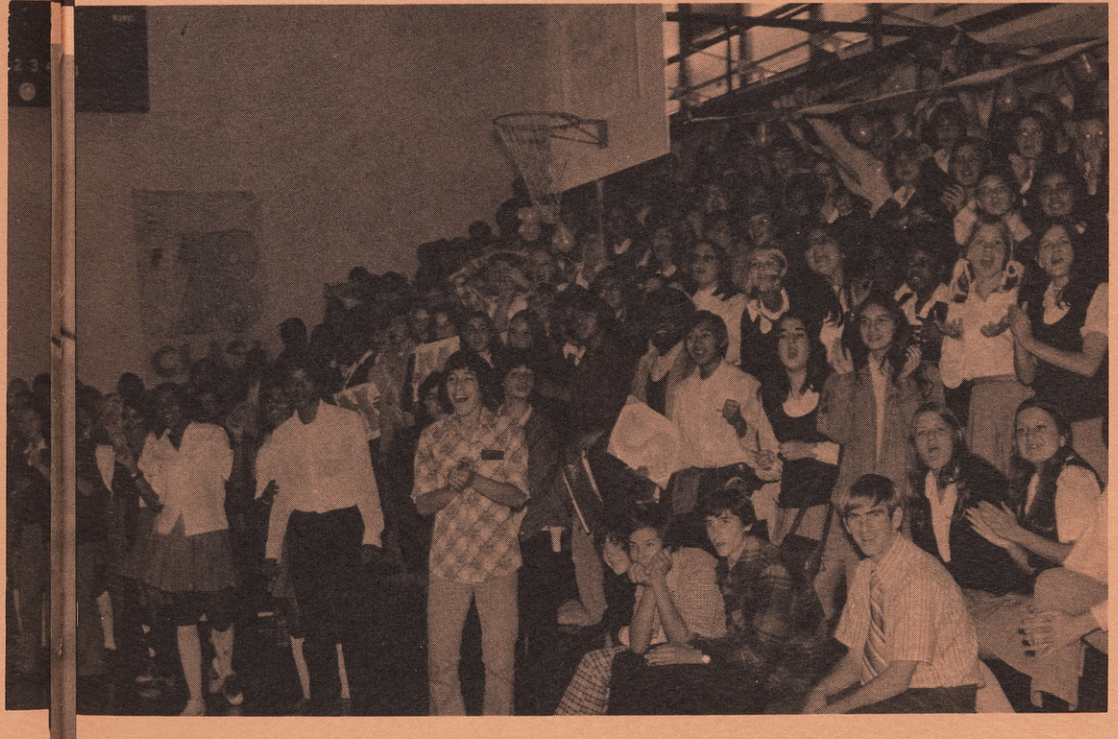
the matting of the tree branches.

The sun is always there.



Sometimes you just cant see it.

We may change
with the seasons,
but the seasons
will not change us.



And joy follows
a pure thought
like a shadow
faithfully tailing
a man.
We are what we think
having become
what we thought.

May the long time sun shine upon you, All love surround you, And the pure light within you guide your way on.

The NHS, an organization of scholarship, leadership, character and service, has had a successful year. This organization has had many activities such as the Christmas gifts to the hospital and the selling of popcorn to raise money for such works. In these ways the organization acts out its charitable duties.

The Mission Club has a dual purpose. Members study to familiarize themselves with the conditions under which the people of the third world live, and try to do their part to educate others to be concerned and to help financially. During the year they have asked Father Krampert to speak to the students on "World Hunger". They have also invited Sister Marlene to tell the girls of her work in Brazil. Mission Week, sponsored by the Mission Club, was a success, and $512.00 was raised to sponsor a child in the third world. The Juniors won the "Principal for the Day Contest", and the freshmen were a close second.

The Mission Club members are also concerned for various types of "poor" around them. They will visit a school for the blind this year and determine in what way they can be of help there.

LIBRARY CLUB

The Library Club is a service club, dedicated to helping both faculty and students of St. Joseph's Notre Dame High School and St. Joseph's High School. Volunteer members assist in the circulation and processing of library materials.

SOCCER

The Pilots proved to be powerful and promising this year. With the expertise of the seniors and the skill of the underclassmen, the team beat St. Elizabeth's 4-3 for their first win. With a cominbed team effort they pulled in 2 wins and 1 tie.

The team was coached by Larry Gandsey, a former student of St. Joe's. Mr. Gandsey had taken a group of athletes and taught them to work as a team. The Pilots hope to come back next year with an honorable record and by the spirit shown by the underclassmen, it is a close to becoming a reality.

VARSITY BASKETBALL

The St. Joseph's Pilots after being underrated as usual, managed through pure determination to place themselves fourth place in the league standings; thus earning the right to a berth in the C.A.L. Playoffs.

The starting team consisted of two fine guards, Ken Giannotti and Donald Johnson-whose hustles and outside shooting proved to be an awesome threat to every opponent. The combination of the power houses of Tom Kidwell, Ed Lankford and Orson Wells gave a tremendous punch to the Pilot's drive as champions.

You may not be thinking about taking a job before graduation...

but the job we have is worth reading about right now.

You're a high school senior. Due to graduate in six months or less. We have a special program for you. Gets you a job even before you're out of school. And doesn't get in the way of your school work:

The Marine Reserve Senior Enlistment Program.

It's a part-time job. Between now and graduation we pay you $45.88 for two days out of each month. After graduation we pay you about $1,400 for 130 days of initial active duty training. After that you're home again—earning at least $770 a year serving with the Marine Reserve unit in or near your hometown.

Besides paying you, we teach you. Perhaps in a skill you can apply to your civilian career.

Whatever else you do after high school graduation—college or career—here's what you'll have going for you: a sizeable chunk of money, first class training and experience, a continuing part-time job, and full-time pride as a United States Marine.

Add it all up. And if it sounds right for you, do something about it. Right now.
